advancement
in all these efforts

Dear Mr. McCarthy;

As the Project Architect on the above referenced project, I would like to take this opportunity to express my satisfaction with the skylight products your organization provided for us. We designed a set of 4, 16 foot square, pyramidal skylights into our building and we have been very happy with the units that were installed. From the clear, complete shop drawings that were produced, to the final installation, we have been quite satisfied with the services United Skys had to offer. We have also had numerous compliments from the Owner, City Officials, and the general public on the building as a whole, and with regard to the prominently visible skylights in particular.

We will be happy to include your company in our specifications as an acceptable manufacturer of skylights and sloped glazing products and look forward to working with you again in the future.

Sincerely

Robert J. King, Vice President, architect
